PERSONAL DETAIL

Address: Taipei City 231036, Taiwan
Telephone: +886-2-9736830
Cell: +886-978518154
Email: hsinyuwen45@gmail.com
Languages: Mandarin Chinese (native), Taiwanese (native), English (fluent — IELTS 6.5)
More Details: [personal profile](#), [LinkedIn](#), [Medium](#)

EDUCATION BACKGROUND

National Cheng Kung University, Tainan, Taiwan Sept. 2024 – Jun. 2027(Expected)

College: College of Management

Department: Department of Transportation and Communication Management Science

Term GPA trend: 3.17 → 3.98 (Spring 2025 peak) → 3.93 (Spring 2026, most recent)

Relevant Coursework: Statistics I/II (B+→A+), Operations Research, Managerial

Mathematics, Intelligent Transportation Systems, Traffic Management & Control,

Transportation Engineering, Supply Chain Management, Introduction to Python Programming (A+)

RESEARCH EXPERIENCE

Co-authored (submitted, Chinese Society of Transportation Annual Conference 2026)

Improving Arterial Signal Progression Disrupted by Pedestrian-Protection Adjustments Using Event-Driven Reinforcement Learning

Nov. 2024 – Present

Designed CEQC, a constrained Q-learning algorithm that adjusts signal timing only after pedestrian-priority events, within hard engineering limits (phase order, minimum green, pedestrian clearance).

Implemented and validated the method in a 5-intersection SUMO/TraCI corridor across 10 training and 20 unseen traffic seeds, **achieving 13.0% (Junction 2) and 22.2% (Junction 3)** improvement in bidirectional bottleneck signal-progression bandwidth versus a conventional fixed-rule (Max-Add) baseline, with **zero control-limit violations** across all formal evaluations.

Student Projects (ISBN 978-986-96606-7-9, May 2026)

A Study on the Green Last-Mile Delivery Transformation of DHL Express Taiwan

(2021–2025): A Business Management Analysis of International Trends, Public-Private Governance, and User Requirement

Jan. 2025 – May 2026

Built an ISO 14083-aligned carbon-emissions model comparing three DHL Taiwan last-mile delivery scenarios; synthesized multi-source operational data into a structured cost-emissions comparison.

PROFESSIONAL/WORK EXPERIENCE

Tachiz Co.

Nov. 2025 – Present

Position: Project Manager and Analytics Lead

- Leveraged LinkedIn analytics to optimize content strategy; A/B-testing revealed carousel posts ~40% more engaging, prompting a strategic shift in brand communication.
- Originated as a campus consulting-course project; converted into an ongoing paid contract engagement based on demonstrated results.

PROFESSIONAL EXPERIENCE

Alpha Ring International

Jun. 2024 – Aug. 2024

Position: Project Manager and Analytics Lead

- Leveraged LinkedIn analytics to optimize content strategy; A/B-testing revealed carousel gaging, prompting a strategic shift in brand communication.
- Originated as a campus consulting-course project; converted into an ongoing paid contract engagement based on demonstrated results.

LEADERSHIP AND COMPETITIONS

NCKU Chinese Language Center

Cultural Program Coordinator

Sept. 2024 – Jun. 2026

- Designed and ran 20+ cultural-exchange events annually supporting 100+ international students; recruited, trained, and managed a team of volunteer assistants.

iLink Creative Business Competition (1st place / 40+ teams)

Sept. 2024 – Jun. 2026

Team Lead

- Led a 5-member team to localize the UK "Walking School Bus" concept for Taiwan communities within a 24-hour prototyping window, including a LINE Bot proof of concept and final pitch.

NCKU Indigenous Resource Center

Sept. 2025 – Dec. 2025

Workshop Facilitator and Interpreter

- Designed and co-hosted a 2-day Māori cultural exchange workshop; served as primary EN/ZH interpreter for 15–20 participants spanning NZ delegates, faculty, and students.

SKILLS

Technical: Python (SUMO/TraCI traffic simulation, data analysis), Reinforcement Learning

Analytics: LinkedIn analytics & A/B testing, data-driven content strategy

Languages: Mandarin Chinese (native), Taiwanese (native), English (IELTS 6.5, fluent), simultaneous interpretation (EN/ZH)

CHART: GPA Growth for 3 years study and expected GPA for the forth year
